III. Services Marketing

What is a service?

- An act or performance offered by one party to another. (Performances are intangible, but may involve use of physical products.)

- An economic activity that does not result in ownership

- A process that creates benefits by facilitating a desired change in customers themselves, physical possessions or intangible assets

V. Test Marketing

Major Types of Test Marketing

➢ Standard

➢ Controlled

➢ Simulated

1. List and explain the "core, actual, and augmented products" of the educational experience that universities offer. How are they different, if at all, from the "product" offered by junior colleges?

2. Get the profile of Lihua Fastfood, Ltd. on its website, and analyze its business model with the theory about service.

3. To get perception from its target market, which way of test marketing is best for a brand-new product such as the flea remover for pets?
